

Airspace Echo (E): Don't be surprised – you are not alone!

Both VFR and IFR traffic can be encountered in airspace E. Therefore, remember:

- ✚ «See and avoid» is applicable to all airspace users
- ✚ Separation by ATC is only provided between IFR traffic
- ✚ Monitor your Airborne Collision Avoidance Systems and follow the issued resolution advisories
- ✚ Choose an appropriate speed – max. 250 kts below 10'000 ft AMSL
- ✚ Don't hesitate to talk to air traffic control or flight information service; they're happy to support you

Take part in the survey
and help to improve
safety in Echo airspace

Safety first, every flight, every time.
